Thanks to modern equipment, the temperature of the grapes was kept below -3°C during the whole processing. So we had a really outstanding wine that smells like fresh grape juice and tastes like most complex sweet wines that really make the Tokaj wine region famous. We have used all the main grape varieties of Tokaj this way we achieved one of a kind aroma strukture in the wine and created a perfect exemple what Tokaj wine region is capable of truly by is own without additives in the wine.
