

# RIZLING<sup>2</sup> 2022

## *Rhine Riesling*

100 % Rhine Riesling

### Summary by the winemaker

*„International variety - our interpretation. For us, Rhine Riesling is an outlook to the world, as we are working with essentially local Hungarian varieties. It is a true cosmopolitan that thrives in many places, but the prime growing areas of Badacsony suit it particularly well, and it has been present in our wine region for over 200 years. A meeting of tradition and 21st century technology. Enhanced taste, enhanced pleasure. Deep lemon yellow colour. The nose is evolving but already varietal, with green apple, lime and petrol notes. Tasting it is dry, mineral, full-bodied and harmonious with rich peach notes. Thanks to the soil of Csobánc, it is almost bursting in the mouth with minerality and saltiness. Absolutely evolving, with a lot of potential for bottle ageing. ”*

### Wine and food pairing

The mineral Rhine Riesling can be an excellent pairing with spicier dishes and Asian cuisine.

### Wine making note

The first vintage of Rizling<sup>2</sup> is made from 50% Welschriesling and 50% Rhine Riesling, hence the name. Over the years, however, the amount of Welschriesling in the blend has decreased, and in 2013, 100% Rhine Riesling was bottled. It is important to present this variety as a separate variety, but the name remains on it. It was made reductively, with a minimum of 5% barrel ageing in addition to tank fermentation.

### Analysis

Grape variety: 100% Rhine Riesling

Fermentation: reductive

Maturation: 5% oak barrel

Type: dry

Alcohol: 13%

Residual sugar: 2.7 g/L

Acidity: 5.4 g/L
