

TOKAJ EYE

Dry cuvee (2021), 0,75 l

VINEYARD SPECIFICATIONS

Name of the vineyard	Ciróka, Megyer, Királyhegy
Grape variety	70% Furmint, 20% Hárslevelű, 10% Muscat Lunel
Maturation	steel for 6 months
Bottling date	May 2022

WINE CHARACTERISTICS

Alcohol	12,33 %
Sugar	8.0 g / l
Acidity	7.7 g / l

2021 started with a frigid spring saw temperatures in a bone-dry March and a very wet April hit freezing at times, however, most vineyards were lucky enough to escape any major frost damage, and neither disease or rot took hold.

June and July saw temperatures ascend but they then quickly fell in August, which also saw the return of rain. September was cooler than usual and mostly dry which kept both disease pressure low, however, the cool temperatures meant grapes were slow to ripen. The slow progress to phenolic ripeness helped concentrated the juices within the fruit while retaining crucial acidity.

This wine shows well defined fruit driven characteristics of peach, nectarine, and pear. It's zesty acidity and saline minerality makes it a super fresh wine that makes it easy to pair with summer dishes such as Bruschetta or Chicken Caesar Salad.
